

## Training Solutions—Designed for you

Erisort Training are delighted to announce our new Major Emergency Management Mobile Training Unit.

Our Mobile Training Unit allows us to bring our training to you.

The Mobile Training Unit enables us to deliver training at a location to suit you - combining the equipment, software and expertise of a dedicated simulation facility with the flexibility of a mobile solution.

Training

Assessment

Competence

## Increased Efficiencies

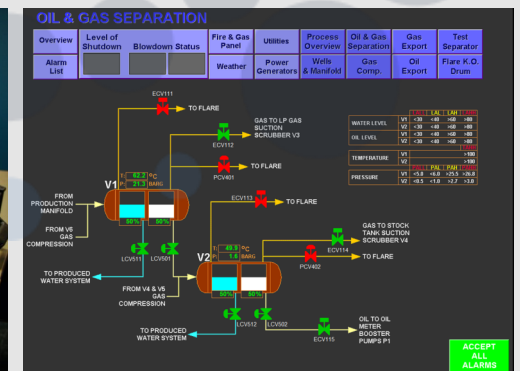

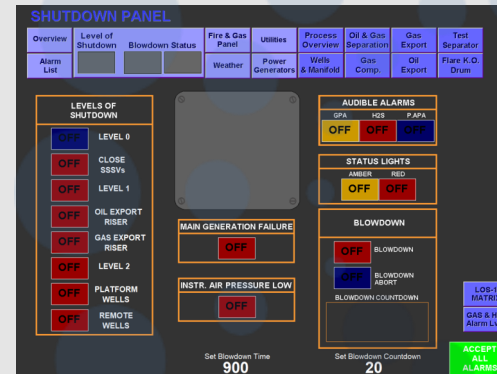

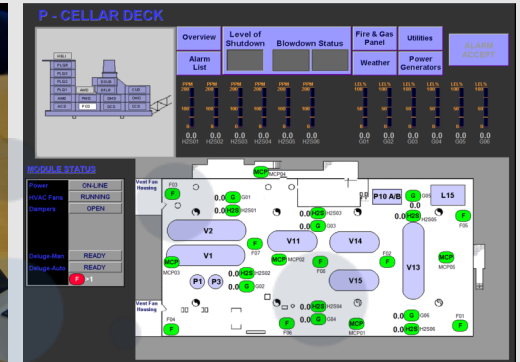

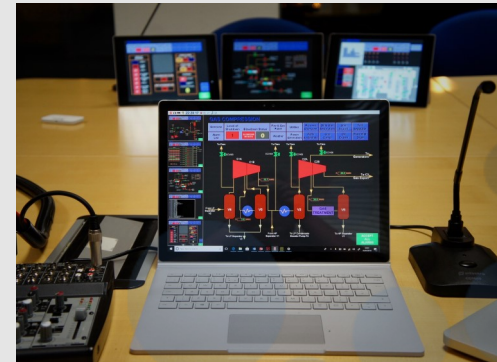

Our Mobile Training Unit is designed to deliver increased efficiencies to our clients.

By delivering training at your facility we can provide a cost effective solution, designed to minimise the impact on staff and operations.

## Flexible Solutions

Lightweight and easily transported, our Mobile Training Unit provides simulations for both offshore and onshore facilities.

With full cause and effect we can achieve a high level of realism that allows us to simulate a range of emergencies.

## Training & Assessment

With a range of options available we can provide training and assessment to meet your needs.

Ranging from Control Room Operations through to OIMs and Site Managers we offer the following on site courses:

Major Emergency Management—Initial Response Training

OIM Controlling Emergencies—Assessment

Control Room Operator—Initial Response Training

CRO Emergency Response—Assessment
